Student Activity Books and Bilingual Memory Game sold separately. Sunflower/Girasol is a fully bilingual Spanish/English curriculum designed to encourage students to develop language skills and at the same time to turn their interest to the world of scientific discovery. The full-color format of Sunflower/Girasol invites children in grades 2-6 to engage in science and environmental education activities and to carry out investigations in their schools, homes and communities. Each thematic unit of Sunflower/Girasol is presented in a full-color magazine format activity book in either Spanish or English, with an accompanying teacher’s guide. The first six units of Sunflower/Girasol are Plants, Water, Human Body, Air, Trash and Sound.

Como crece una semilla (How a Seed Grows) (Let's-Read-and-Find-Out Science)
Amazon.com

http://www.amazon.com

ISBN-13: 978-0060887162  Revised illustrations and format make this book, originally published in 1960, a valuable choice. With charming illustrations and clear text, this simple introduction leads young readers through a series of steps that result in bean plants as well as a basic understanding of how seeds work. Children are encouraged to follow each aspect of the botanical process, from sowing bean seeds, to the growth of tiny root hairs, to transplanting the plant in the garden. Realistic and inviting full-color watercolors show only procedures that are possible for youngsters to follow with minimal involvement from adults. The African-American girl, who is the main character, is definitely in charge; her white male friend performs only menial tasks.

Coralito's Bay/ La Bahía de Coralito
Monterey Bay National Marine Sanctuary

http://www.mbnmsf.org

Coralito’s Bay is the story of a young boy’s imaginary underwater adventures through the Monterey Bay National Marine Sanctuary. This dream-like journey in his father’s adapted flower truck shows young Coralito the natural wonders of living in the Sanctuary, and how important clean waters are to it’s inhabitants. Coralito learns that the ocean, like himself, needs a clean and healthy environment. The book is in both Spanish and English.

FOSS Solids and Liquids - Complete Module
Delta Education

http://www.delta-education.com/
WX742-5016

The solids and liquids module provides experiences that heighten students' awareness of the physical world. Matter with which we interact exists in three fundamental states: solids, liquid, and gas. In this module first and second graders have introductory experiences with two of these states of matter, solid and liquid

Solids and Liquids - Complete Module
Delta Education

http://www.delta-education.com/
742-7210

The Solids and Liquids Module (4 activities) introduces students to characteristics of two states of matter. After describing properties of solid objects, students use them in construction projects. They investigate the properties of particulate solids (cornmeal, beans, rice) and liquids (water, corn syrup, oil) and compare their behaviors. After observing solid/liquid and liquid/liquid interactions, students investigate toothpaste to determine if it is solid or liquid. Complete Module includes all the materials for the activities, the teacher guide, one 8-pack of Science Stories, and the Teacher Prep Video. Spanish supported in Spanish Science Stories for the unit can be bought separately.
